

Item Undertaker™

Putting old items to rest with less digging

Software download available here

Please find the row in the chart below which correctly describes your BPCS / ERP LX version level. If you have a version number which is not found in the chart, please call using one of the phone numbers below, or, [click here](#) to send us an email.

The download depends on your version of BPCS or ERP LX	Click the  symbol to access the installation file for your version
BPCS v4.05CD	
BPCS v6.0	
BPCS v6.0.4	
BPCS v6.1	
BPCS v8.2	
ERP LX v8.3.3	
ERP LX v8.3.4	
ERP LX v8.3.5	
ERP LX v8.3.5x with resurrection capability	

If you have not yet purchased the product, you will be able to execute the Quick Scan without a key and that Quick Scan will provide some **very interesting** information about records in your Item Master file. The Quick Scan is launched with option #99.

Please call if you need advice or assistance with keys

To try deactivating a limited number of items before purchasing the product, you will need a temporary demonstration key. If you have already licensed the product, you will need to receive a permanent license key to operate Item Undertaker after the download has been completed.
