

Standing Ovation®

Advanced Training for AS/SET Software

Unbeaten Path International provides two days of expert-level AS/SET training for up to six students. Either **Bob Kohlndorfer** or **Tom Garvey** conduct this class; they are two of the most qualified AS/SET technical people in the world. The course is conducted at the customer's site.

The Unbeaten Path trainer will work closely with the students, using one of the customer's *actual* AS/SET development projects as the training vehicle. Some time before the course is scheduled to begin, the Unbeaten Path trainer will speak with appropriate individuals at the customer to help select a reasonable AS/SET development project for the course. If there are multiple students, then multiple projects can be selected.

The course format will be personal, elbow-to-elbow guidance and professional support as opposed to a "stand-up" presentation paradigm. The objective will be to provide expert-level AS/SET training while simultaneously moving the customer's selected development project decisively towards completion.

The students attending the training must have completed self-paced AS/SET training using Unbeaten Path's Standing Ovation AS/SET Architecture and Application Self-paced Education Guide. Approximately three days of self-guided effort will be needed to complete the exercises in this training manual.

Click [here](#) for more information about our
Standing Ovation AS/SET Self-Paced Education Guide.

Depending on the nature of the questions which may surface during the course., the trainer will occasionally direct the attention of all students to some section of the **Standing Ovation AS/SET Self-Paced Education Guide**. Students will be encouraged to take notes on some pages of this manual.

At the customer's option ...and depending on the complexity of the specific AS/SET development project selected by the customer for the course ... the length of the on-site training can be extended from the usual two days to three or four days.

After the course is concluded, the customer can arrange to get telephone support for very sophisticated AS/SET questions. This would be provided by Unbeaten Path's **NoExcuses™ HelpLine**.

Questions ?

It would be a privilege to answer any questions about our training for AS/SET software. Here's Unbeaten Path International's contact information:
