BPCS 8.2	V6R1+V7R1	please call
ERP LX v8.3.1	V6R1+V7R1	please call

If you have purchased the product, you will also need to receive a permanent license key to operate Item Undertaker after the download has been completed.

If you have not yet purchased the product, you will be able to execute the Quick Scan without a key and that Quick Scan will provide some **very interesting** information about records in your Item Master file. The Quick Scan is launched with option #99. To try deactivating a limited number of items before purchasing the product, you will need a temporary demonstration key.

### Please call if you need advice/assistance

If you have a version number combination which is not found in the chart, please call using the phone numbers below, or, [click here](#) to send us an e-mail.
